

HOPE CENTRE DURHAM REGION

Pain and suffering don't only exist in distant, remote parts of the world. Despite the quiet tree-lined streets of residential homes and the beautiful, century-old facades of its downtown buildings, the reality of life in our community is often in stark contrast to the peaceful streets and gentle rolling hills that comprise the beauty of Durham.

You can shine the light

Imagine if every child in our community grew up in a loving, strong family. Imagine if every teen and young adult in need of guidance had a dedicated mentor, and every individual in emotional pain knew there was a place to receive support. Imagine if each family on the verge of a crisis found relief and hope through the support of their neighbours and community.

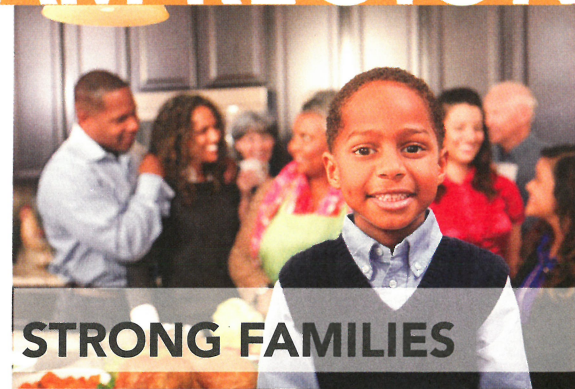

Imagine the Hope Centre Durham

VISION: To provide a single point of access for key supportive services to all individuals and families in Durham Region.

MISSION: To bring together a collaboration of key service providers under one roof to serve as a catalyst for building strong, healthier individuals, families and communities, and to ensure that community members are able to access multiple key supports in one location.

BENEFITS:

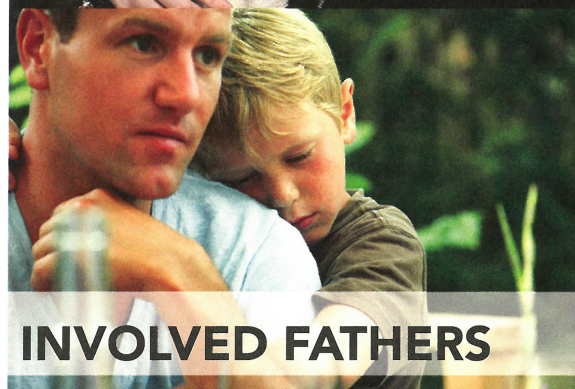

1. A higher community profile for the participating agencies, resulting in a stronger collective voice for the individuals and families of Durham Region.
2. Overall strengthening of the community resulting from a collaborative response to the needs in the community.
3. Increased ease of access to key services for community members.
4. A more seamless method of service provision and cross agency referrals.
5. An overall reduction in overhead costs for collaborative partners resulting in more dollars being available for direct service delivery.
6. Timely, relevant and accessible services leads to increased healing and a reduction in the need for other more costly services such as health care, the justice system, child welfare and social assistance services.
